

METRIC SYSTEM Extra credit option

List 100 items from YOUR life that are measured with the metric system. Vary your items to show at least 3 categories... more categories the better.

Use excel, word tables, google docs to create an electronic copy and email to MRC at acunning@arlington.k12.or.us

Format the list as below

ITEM	HOW MEASURES	WHAT CATEGORY
Bottle of water	500 ml	volume

Analog Alternative... create 100 flash cards with the category on one side, the item and what is measured on the other.
